

DURACELL®

Golf Car

- Made for Convenience • Built to Last

Built to withstand the demanding use, frequent service, and off-road vibration damage of golf car use.

Duracell Golf Car batteries

are built with durability enhancements, reduced maintenance techniques, and electrical short protection designs to safeguard against these golf car specific battery problems.

Duracell Golf Car batteries are also designed to deliver superior user convenience. Special manufacturing features significantly reduce time-consuming battery maintenance and expensive watering systems while delivering the industry's most trusted performance.

Duracell EG Line

The Duracell EG line provides another premium quality battery choice that strategically integrates value with high performance to deliver maximum reliability and longevity.

BETTER PERFORMANCE PROTECTION

- Fortified internal connections resist performance loss from vibration damage
- Premium glass mat reinforcement protects battery's ability to store energy (less recharging)
- Durable, envelope separators prevent shorting for longer life

LESS WATERING, LESS MAINTENANCE

- Large reservoir and ultra-pure electrolyte optimizes water utilization
- Special alloy and separator material reduces water consumption
- Hermetic cover to post seal prevents terminal corrosion

INCREASED SAFETY FEATURES

- Strong, heavy-duty welds ensures critical user safety
- Fortified, solid posts impede post damage, especially from heat
- Reinforced polypropylene case and cover resists breakage under demanding outdoor use

MORE OPTIONS TO FIT YOUR NEEDS

Six- and Eight-volt options to best meet the needs of a wide variety of Golf Car, Electric Vehicle, Portable Power, or other deep cycle needs.

6-volt
(three electrolyte vent well openings)

8-volt
(four electrolyte vent well openings)

INTEGRATED "TWIST-AND-RELEASE" VENT CAP SYSTEM

- Releases all vent caps in a single motion making water replacement easier
- Eliminates loosening individual vent caps
